

ProForm NX™ Modification Guidelines

Designed for people requiring greater positioning support and/or cushion modifications

Modify Contoured Base and Modifiable Wedge with a blade or electric knife. Cut Modifiable Thigh Cushion using scissors.

Cinching the Cover

1. Fold provided hook material in half so that you have hook on both sides.
2. Place hook material on loop at front, bottom edge of cushion on side of modification.
3. Pull firmly on cover and fold it back on itself and attach hook to appropriate loop.

Examples of common modifications

Upper Leg Length Discrepancy

- Cut along the Modification Guides on the Contoured Base to accommodate shorter femur.
- Cut the Modifiable Thigh Cushion and Modifiable Wedge to conform to the Contoured Base.
- Cinch cover. (see above)

Examples of common modifications

Wind Swept Deformity

- Cut the Contoured Base to accommodate the pelvic rotation.
- Cut down the existing medial thigh separator.
- Create a new medial thigh separator using Cheat Sheets™.
- Cut ModifiableThigh Cushion and Modifiable Wedge as needed to conform to the Contoured Base.
- Cinch cover.

Cerebral Vascular Accident (CVA) Above Knee Amputation (AKA) Limited Hip Flexion

- Cut Contoured Base and ModifiableThigh Cushion up the middle to ischial bar.
- For CVA and AKA, cut the Modifiable Wedge and place only under the affected leg. For limited hip flexion, place wedge only under the unaffected leg.

Symmetrical Posture

- Modify the Contoured Base with Cheat Sheets™ to build up the medial thigh separator and/or laterals.

Existing Reddened Skin

- Identify location of bony prominence relative to the base, ideally with a pressure mapping system.
- Cut holes or recessed areas in the Contoured Base to provide additional pressure relief.
